Attractive decors characterize the slim Compact Slim A tabletop, which is suitable for both indoor and outdoor use. The easy-care surface made of highly compressed HPL laminate is UV-resistant and, in terms of its durability, corresponds to the material specified in DIN EN 438 for kitchen worktops. The impact-resistant tabletop is available in square and round shapes. The edge color is dark—regardless of shape and decor—and, in addition, differs from the "Compact Slim" by its rounded edges.

- très facile à entretenir
- UV-resistant and impact-resistant
