

ELEMENT 120 CM TUYA B

The distinctive features of Tuya B are evident in the curved surfaces of the backrest, armrests, and seat areas, which give this bench system its unique character. The meticulous craftsmanship of the upholstery demonstrates exceptional skill and lends the overall design a high-quality touch. Tuya B is available with two leg options: very robust and stable, black, powder-coated steel legs or solid, tapered oak legs (natural). But it's not just the appearance that impresses – the seating comfort and ergonomics of Tuya are outstanding. The bench system – consisting of a 60 cm element, a 120 cm element, and a corner element in dining & lounge table height – is available with both a low and high backrest. It is important to note that benches with a high backrest must always be mounted to the wall to ensure maximum safety.
