

CHAIR VERIO

For nature lovers, the stackable Verio chair is the right choice. The aluminum frame is powder-coated in silver or black, easy to care for and weather-resistant, and contrasts elegantly with the seat and back made of untreated teak slats. The solid wood slats in the seat and back are ergonomically shaped and provide comfortable seating. Teak is resilient, can remain outdoors year-round, and when left untreated develops an elegant silver-gray patina. Anyone wishing to preserve the yellow-brown color tone should oil the surfaces before first use and refresh the treatment regularly. Ideal for flexible outdoor areas: Verio is stackable.

- Lightweight and stable
- Stackable
- Fully solid, shaped wooden slats in seat and back
